

MidAmerica GIS Consortium

2014-2016 Completion Report

Approved : 10/14/2014

Primary Applying Organization: STMPG

- March 1, 2016 - Completion Report
- April 24-28, 2016 - Presentation of Grant Project at the 2016 MAGIC Symposium

- we are registered to present

Is the grant project finished with all the goals in the timeline completed?: Yes No

Did you meet your goals & overall objective initially stated in the grant proposal?

Yes No Explain: yes + no. we assumed we had good, accurate data to work with, which was not the case. we were able to develop a "work-be" workflow for when/ if the entity has clean data + wants to pursue the furthering of the project.

What were the results of the grants efforts & how did you measure success?

better understanding of regional transit entities + their needs. + how their data can be used to improve their organizations

What lessons did you learn?

How will you continue to use the results of this grants efforts?

work toward updating + cleaning spits data. perhaps a bi or tri annual overview of the data re-analysis of this workflow

How did the results of the grants efforts benefit the MAGIC Region?

provided a better understanding of how
Residents travel between the 3 states + 7 counties
+ a mechanism to research why + how an area
is lacking a particular essential service

How can other entities use your implementation plan and/or results?

the overall idea can be applied using any regional
transit authority's data. Locally, economic
development officials can use it as a proxy
for future business potential

Initial Grant Amount: \$ 4500
Grant Amount Distributed to Date: \$ 4500
Requested Final Payment: \$ 0
Remaining Grant Balance: \$ 0

Official MAGIC reports must be submitted to the MAGIC Grant Chair by the submittal dates to remain in good standing in order to receive the entire MAGIC Grant amount awarded.

Attach further documentation & descriptions as necessary

Please attach ALL reimbursement documentation throughout the grant to receive final payment.
